

## Krugersdorp Office, West Rand

### Meet The Team

In our krugersdorp office we have the following staff members:

**Esther Makgae is our Social worker who recently joined Khulisa on the 19th of June 2023, however she did her 4th year practicals with Khulisa in 2018 at Alex Office.**

**Bonolo Sedumedi is the Social Auxiliary Worker who is a qualified Social Worker. She also did her 4th year practicals with Khulisa. In 2021-2022 she secured a FirstRand internship in the same organization and finally got employed as a Social Auxiliary Worker from April 2022 till now.**

**Samantha Mokgothu is an Intern Social Worker who joined our team on the 01 November 2022, she obtained her Social work qualifications in May 2022. She is an introvert and hardworking individual and she can work independently. She likes team work as she believes it gives great results.**

### About Our Services

We offer diversion services that targets both children and adults within the West Rand region, specifically Krugersdorp, Westonaria and Randfontein communities. These services benefits clients that are in conflict with the law for committing petty crimes, such as shoplifting, common assault, drinking and driving, malicious damage to property and possession of drugs. The diversion programmes that are offered includes Silence The Violence, Positively Cool and Breakthrough. In addition to the above mentioned, we also conduct School Holiday Programmes and Social crime awareness and prevention programmes.

### Profile On A Happy Beneficiary

**Matla Combined School in Kromdraai, Krugersdorp, Received a donation of brand new school shoes, school socks and packs of stationery which were handed out to 300 learners in Grades 5 to Grade 10 on the 15th of February 2023. The items were donated by Investec bank.**

Our key highlight has been our office's ability to reach the set out target by the Department of Social Development despite the challenges that our organization faced in regards to funding from our key funder, The Department of Social Development. In addition to this, having the funding being reinstated and our colleagues back at their different offices came as a great relief.

### Impact: Evidence Of Some Work We Have Done With Measurable Results

**After the donation of shoes to the learners of Matla Combined School, we received positive comments from the learners/beneficiaries. These comments expressed feelings of gratitude, excitement and fulfilment.**

### THANK YOU TO OUR PARTNERS/SUPPORTERS

Our heartfelt appreciation goes to Investec bank for their generous donation and the school for their effortless cooperation.

### How To Make A Difference

**HOW YOU CAN MAKE A DIFFERENCE**  
We intend to make a difference by continuing to work with schools within the West Rand region to implement the new programmes that have been introduced by Khulisa. To ensure that we address the needs of our beneficiaries; most especially children because we believe that prevention is better than cure and therefore if these issues are addressed while they are still children/teenagers and uprooted at the core, then the programmes can be more effective than trying to do so when they are already adults

**A SMALL DONATION MAKES A DIFFERENCE**
