Reinventing lives

TURNING COMMUNITY INTELLIGENCE INTO BETTER DECISIONS

African Excellence Awards 2026 Winner:

Best Social Impact Organisation (South Africa)

Innovation Award for Data-Driven Social Solutions (South Africa)

South Africa Doesn't Have a Funding Problem. **IT HAS A COORDINATION PROBLEM.**

Every year, governments, businesses and donors invest billions of rand into social development.

Yet many communities continue to experience:

- Poor service delivery
- Fragmented partnerships
- Community distrust
- Limited evidence of impact
- Repeated investment into the same problems

The challenge isn't a lack of investment.
The challenge is knowing where to invest, how to coordinate action and how to measure what really changes.

Khulisa Changes the Way **ORGANISATIONS MAKE SOCIAL INVESTMENT DECISIONS**

Khulisa Social Solutions is a social innovation and systems implementation organisation that helps governments, businesses, municipalities and funders make better social investment decisions through Community Intelligence, Systems Intelligence, Collaborative Implementation and Impact Intelligence.

Our approach combines almost three decades of community experience with AI-enabled intelligence, participatory engagement and measurable impact to transform complex social challenges into practical, collaborative solutions.

Our Integrated **INTELLIGENCE MODEL**

Better intelligence leads to better decisions.
Better decisions create stronger communities.

Why Organisations CHOOSE KHULISA

Traditional Approaches Traditional approaches often deliver:	Khulisa Delivers 
One-off research	Continuous community intelligence
Stand-alone projects	Systems thinking
Short-term interventions	Cross-sector collaboration
Output reporting	AI-assisted analysis
Periodic reviews	Real-time learning
Reporting on outputs	Measurable impact

We don't simply identify problems.
We help partners understand them, solve them and measure lasting change.

National Experience. **LOCAL INTELLIGENCE.**

Established Ecosystems

- Nearly 30 years of experience
 - 19 offices across South Africa
 - Approximately 300 staff
 - 150 communities
 - 350 community partner organisations
-

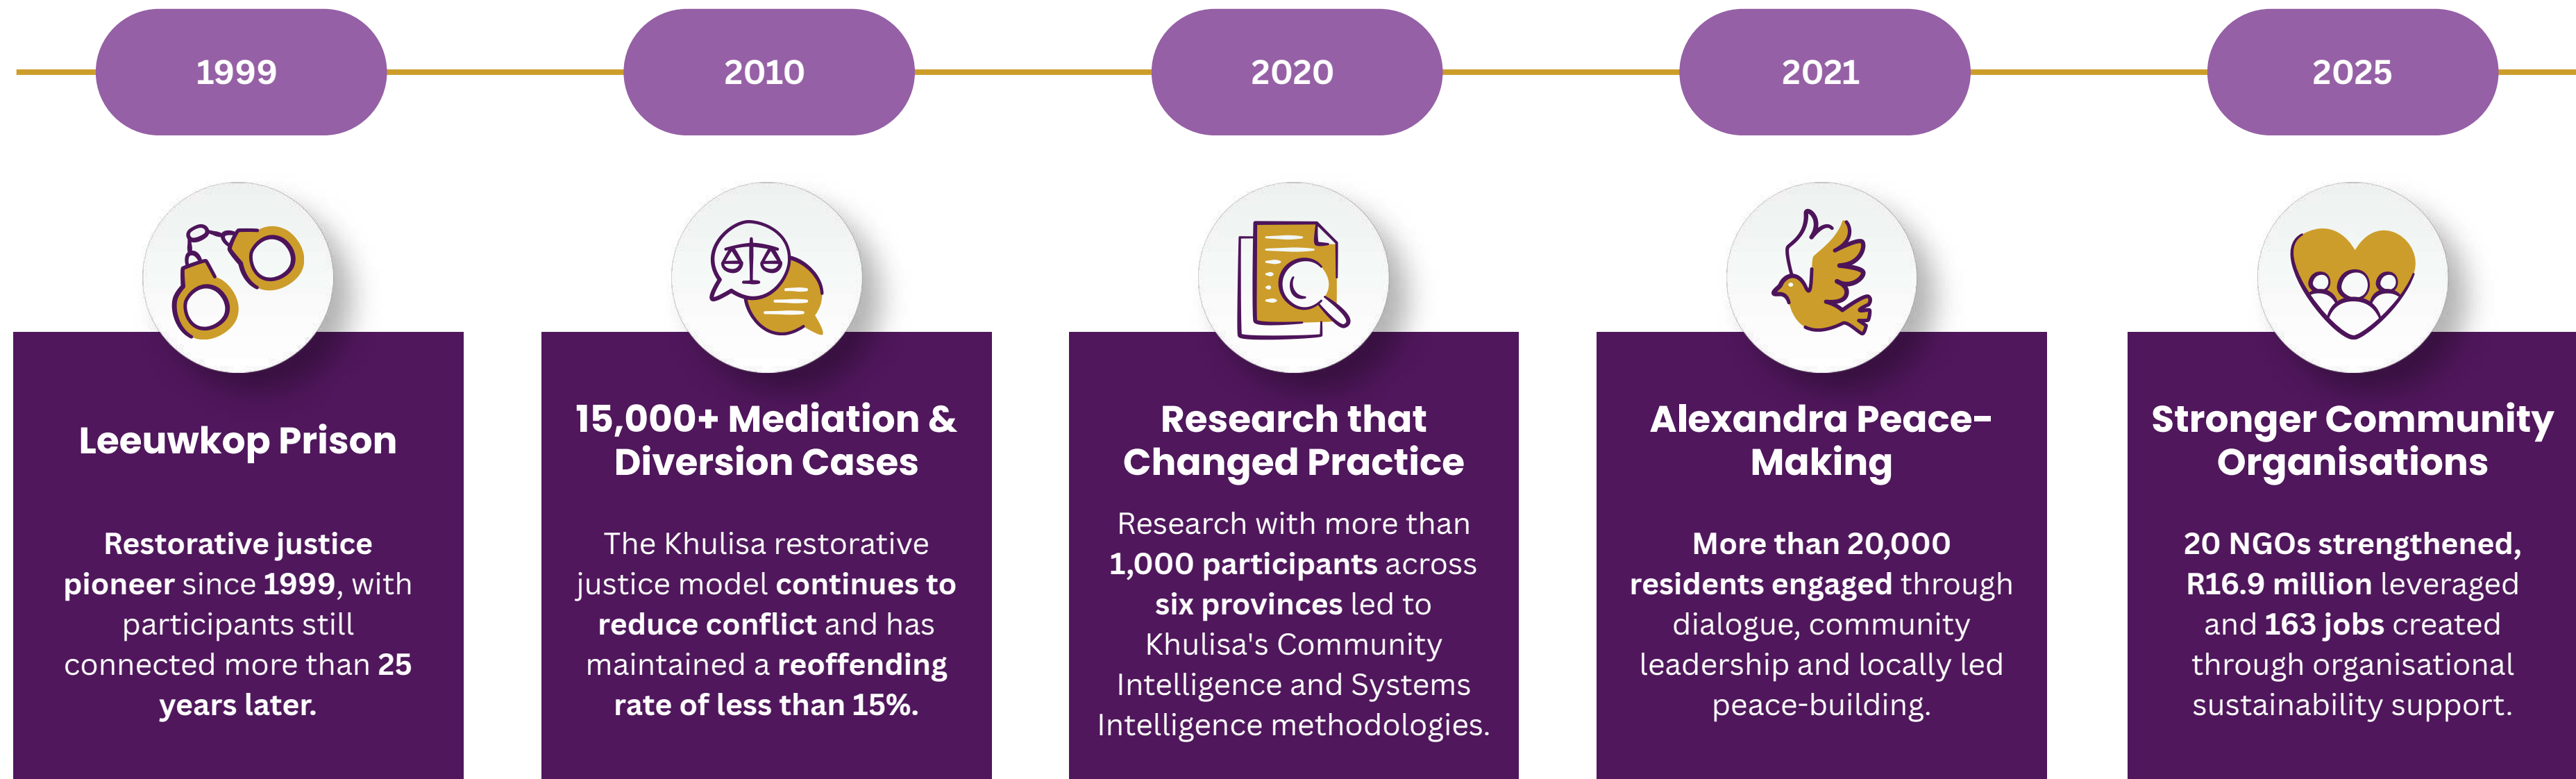

Working across:

- Government
- Mining
- Financial Services
- Energy
- Education
- Community Development
- Justice
- Youth Development
- Social Cohesion

**Our work combines national capability
with deep local relationships.**

Three Decades OF PROVEN IMPACT

From changing individual lives to strengthening entire systems, **our work demonstrates lasting impact** across communities, organisations and generations.

From Projects **TO SYSTEMS CHANGE**

EVIDENCE

We identify the root causes of complex social challenges before designing solutions.

RESTORATIVE JUSTICE

We change behaviour, restore relationships and reduce reoffending through evidence-based practice.

COLLABORATIVE IMPLEMENTATION

We help communities lead dialogue, mediation and collective action that strengthens social cohesion.

SUSTAINABLE ORGANISATIONS

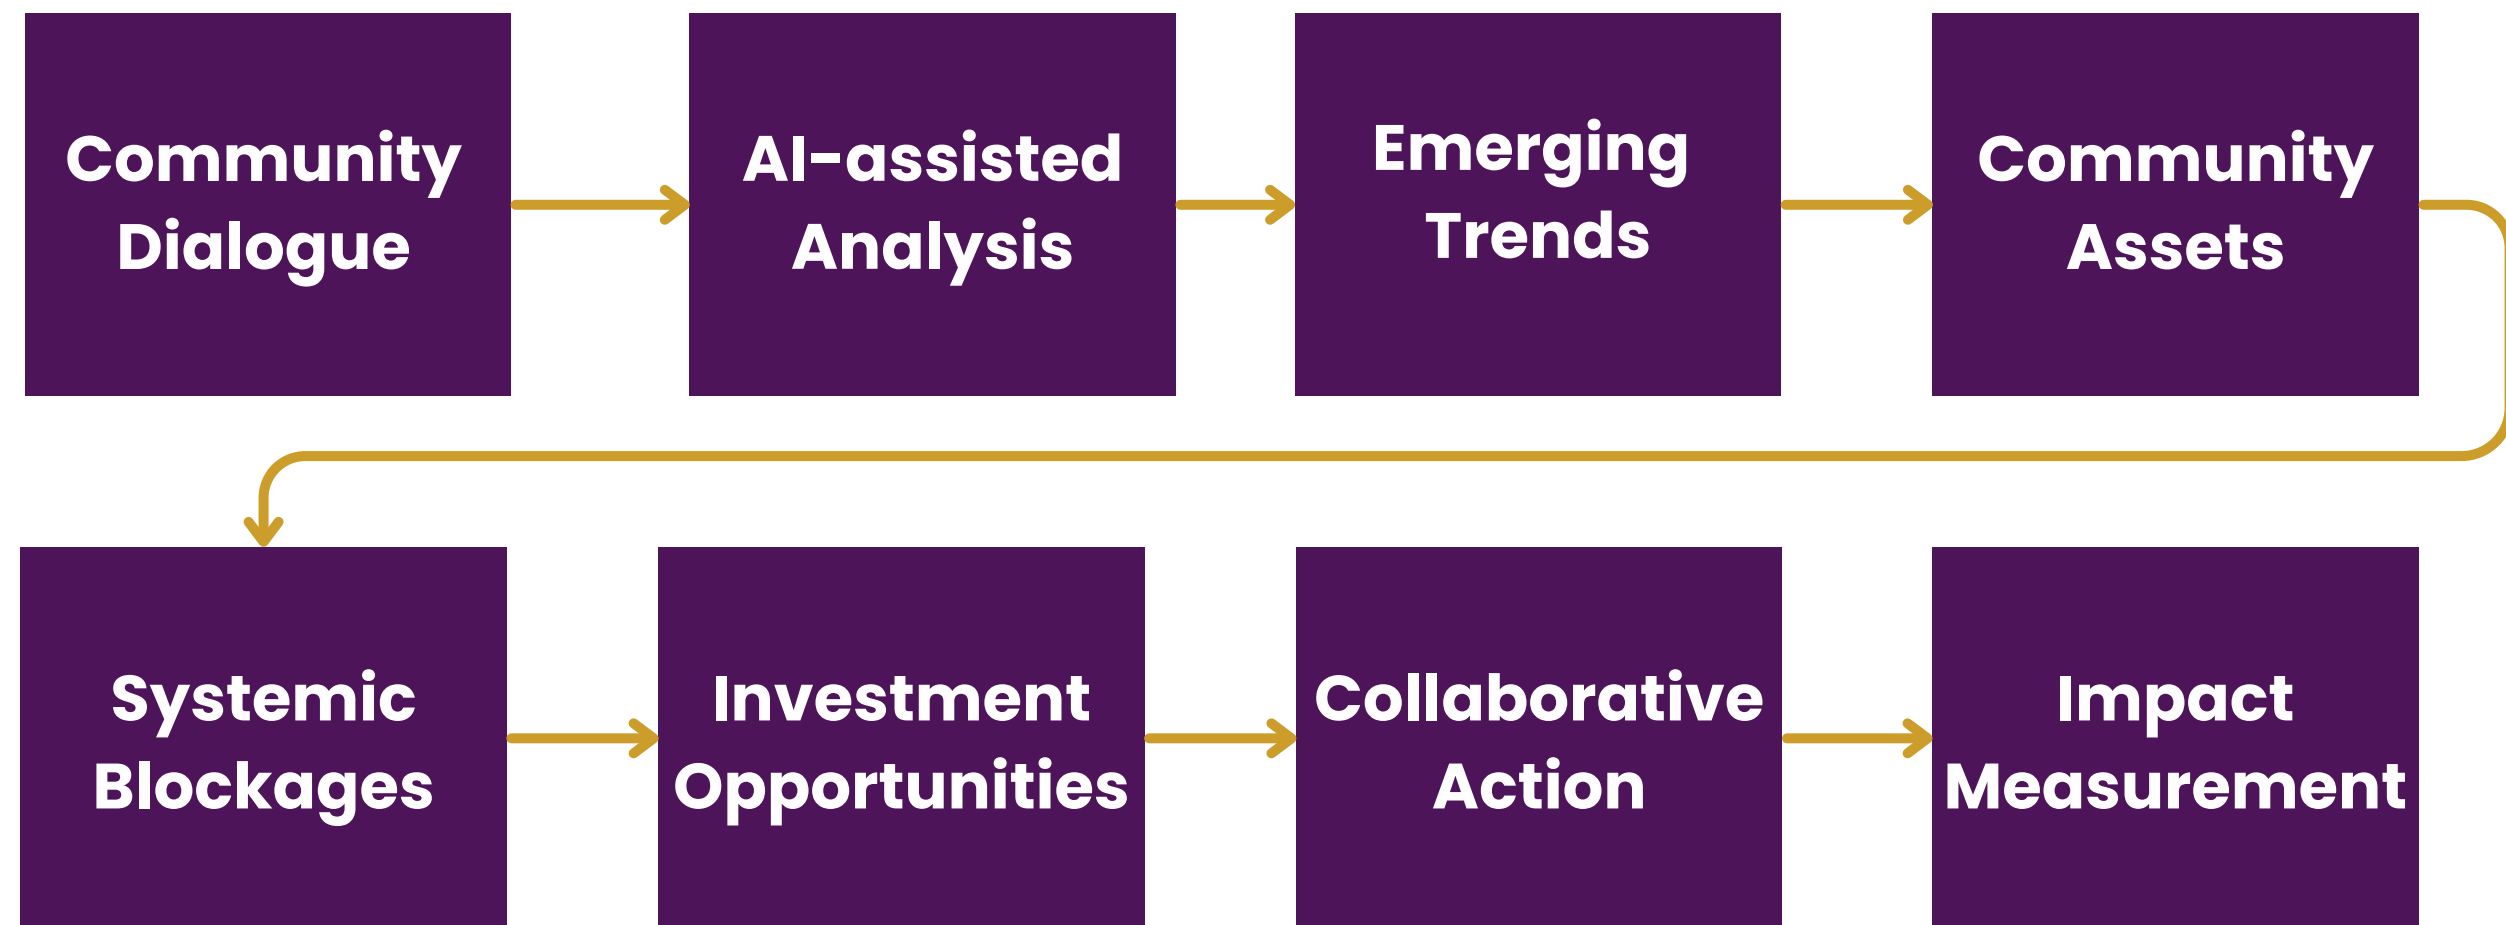

We build resilient NGOs with the leadership, governance and resources to create lasting impact.

For almost three decades, Khulisa has gone beyond delivering programmes.

We generate evidence, strengthen local systems and build the people and organisations that enable sustainable social change long after individual projects have ended.

From Community Voices **TO BETTER DECISIONS**

Our AI-enabled Community Intelligence Model transforms thousands of community conversations into strategic intelligence.

Rather than relying on assumptions, our partners receive evidence that supports better planning, stronger collaboration and smarter investment.

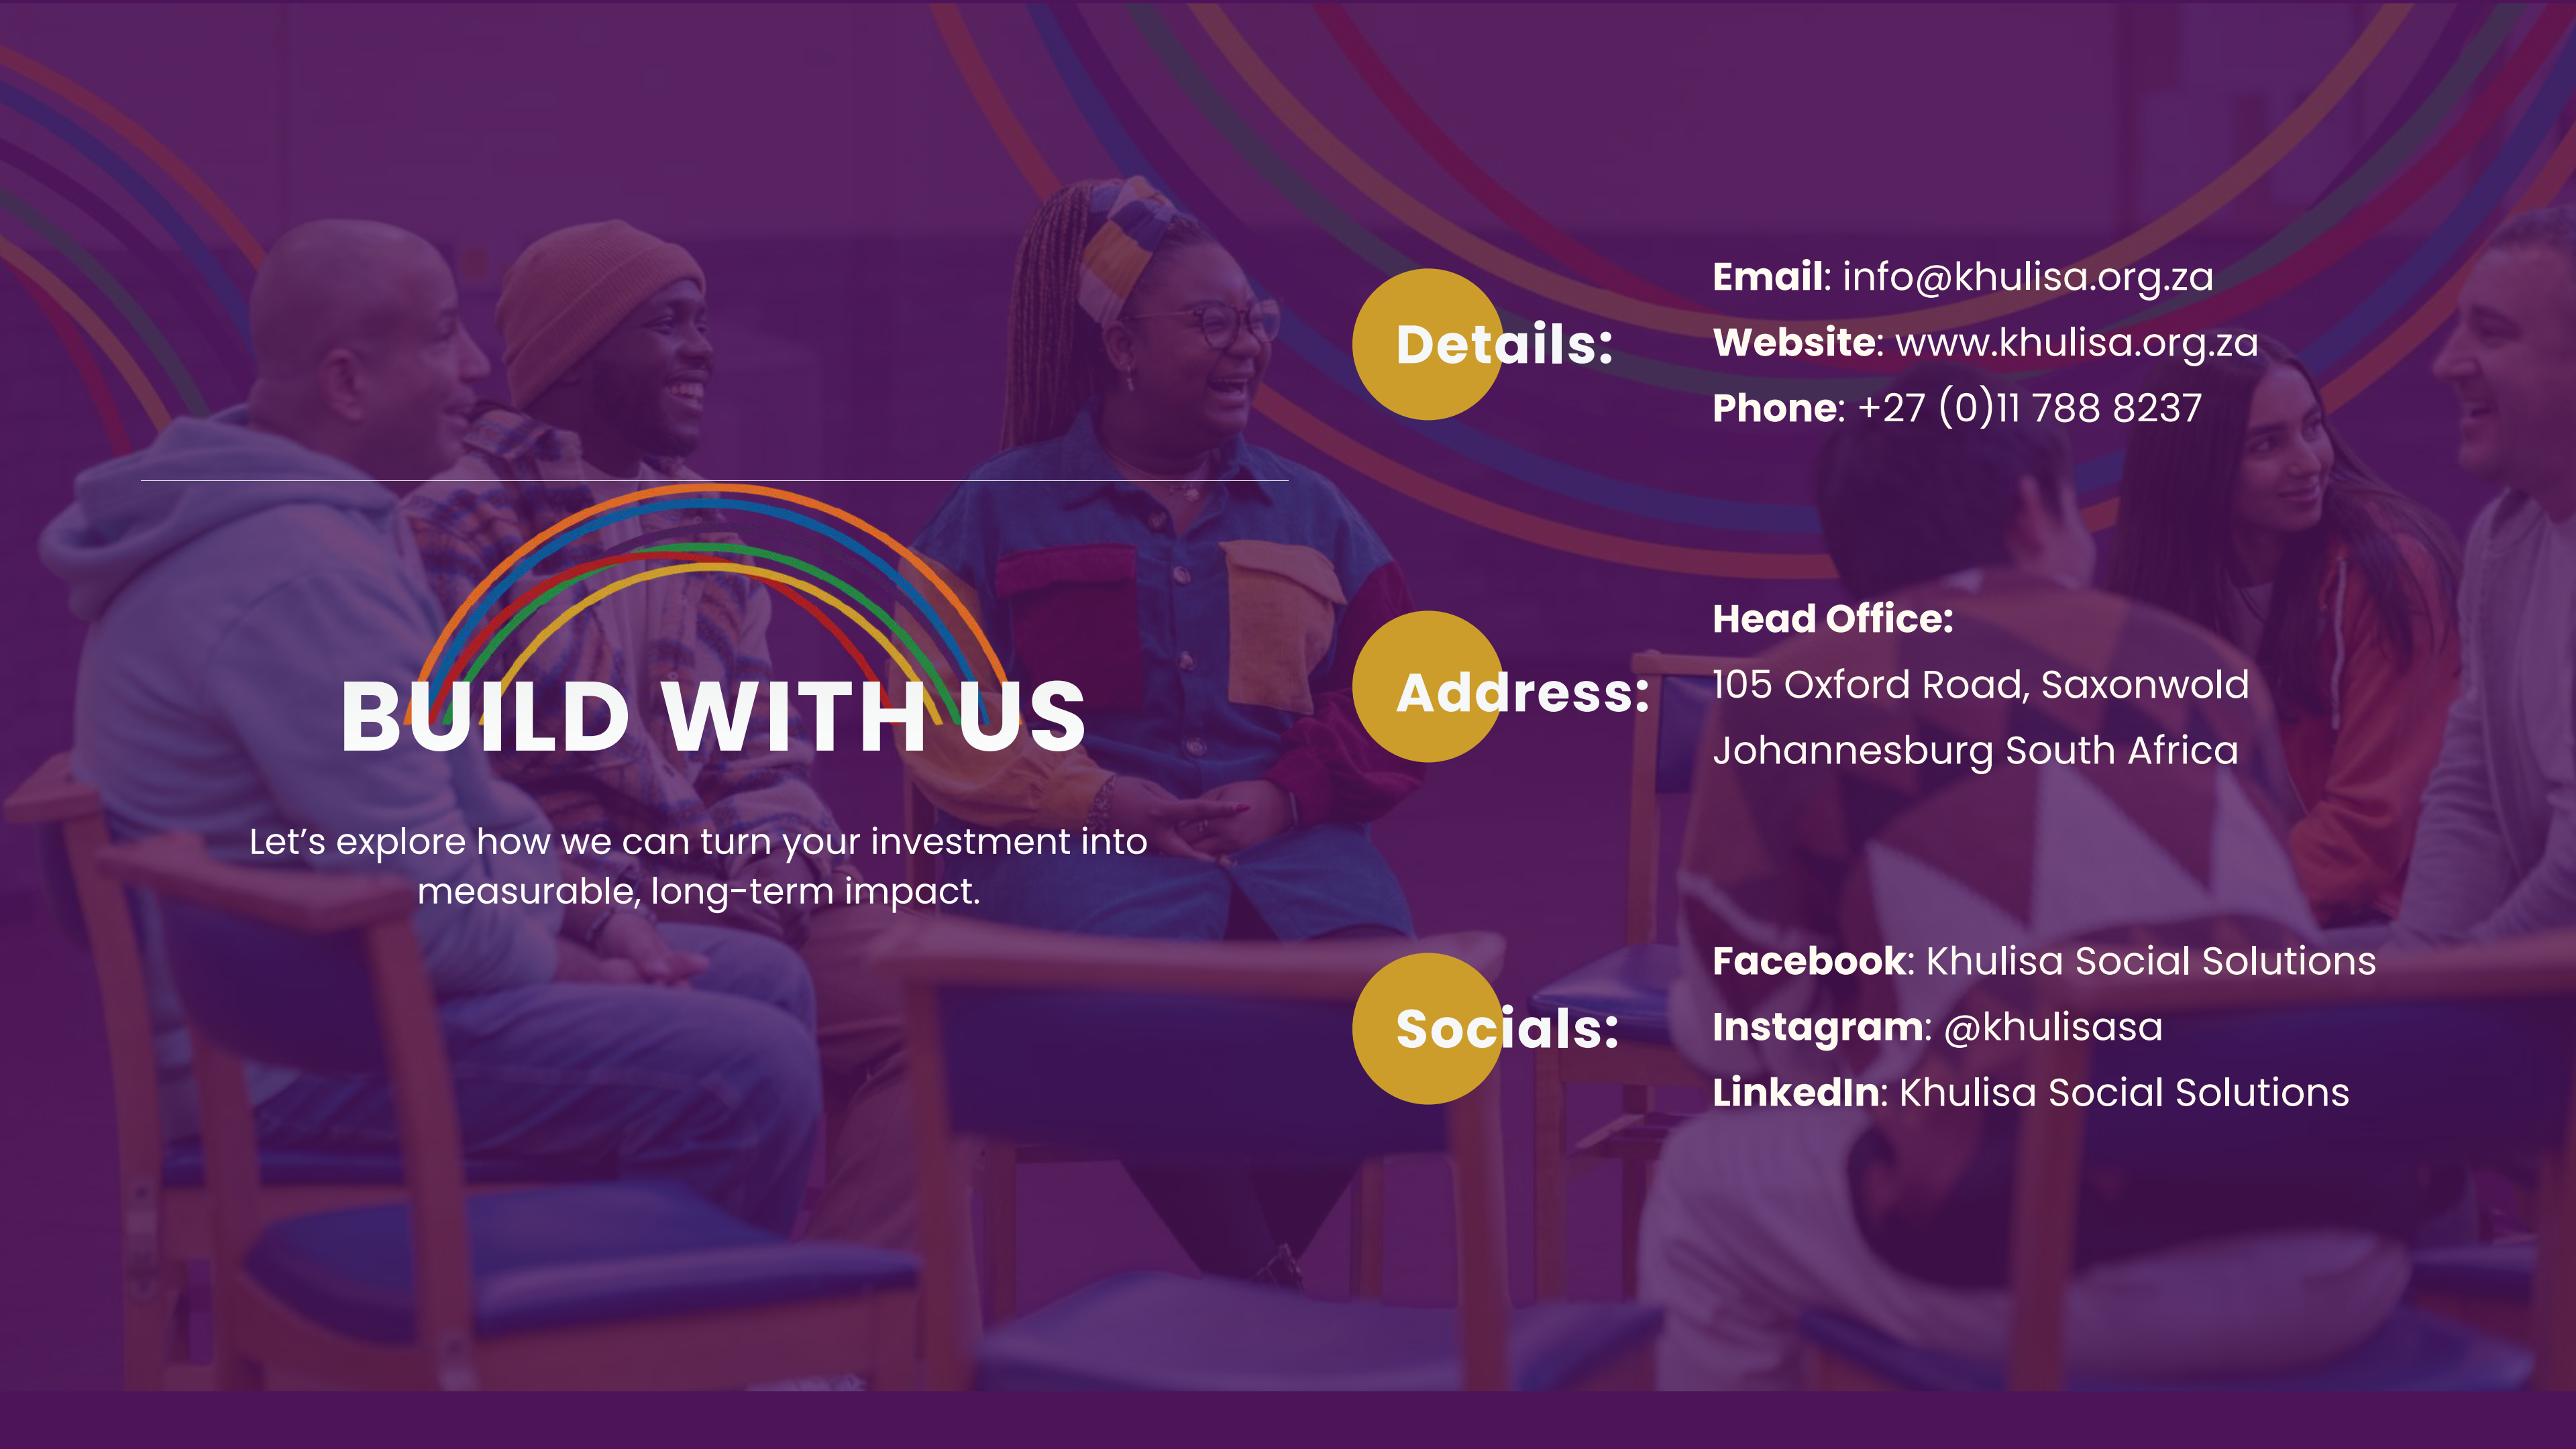

WHAT PARTNERSHIP *Looks Like*

Khulisa works alongside organisations to:

- ✓ Understand communities before investing.
 - ✓ Identify opportunities for collaboration.
 - ✓ Mobilise local stakeholders.
 - ✓ Strengthen implementation.
 - ✓ Measure social impact.
 - ✓ Demonstrate return on investment.
-

Whether supporting municipalities, mining companies, corporates or international funders, our role is the same:

Turning Community Intelligence into Better Decisions.
